NMMA® 2022 CSI Award Recipient for Customer Satisfaction Aluminum Boats Industry Leading 19 Consecutive Years

The Certified Advantage The NMMA® Certified label on a G3 Boat lets you know it was built to meet and often exceed, strict quality and safety standards established by the U.S. Coast Guard and the American Boat and Yacht Council. These standards include 31 categories covering electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. As a result, U.S. Coast Guard statistics show NMMA® Certified boats have been shown to be safer than non-certified boats.

G3BOATS.COM

SPORTSMAN SERIES

The name says it all...Sportsman. These all-aluminum, all-welded fishing machines continue to exceed the expectations of anglers everywhere, thanks to their unique and versatile layouts. Huge casting decks, extra-large divided livewells with pump-out, recessed trolling motor foot controls, and massive amounts of storage are just a few of the features that make the Sportsman models our most popular series of boats. Make G3 and Yamaha your fishing partners today, and upgrade your adventures for years to come.

Notice to Consumer: The performance information and data contained in this Catalog is approximate and subject to many different factors and variables. It is provided as a guideline only and should not be relied upon as representative of actual performance. Your boat's performance may be different than the information contained in this Catalog due to various factors, including your boat's actual weight, wind and water conditions, temperature, humidity, elevation, bottom paint, boat options affecting wind/water drag and/or boat weight, and operator ability. Please confirm the specifications and performance data on your specific boat/engine combination with your dealer prior to purchase. Please also keep in mind that the data contained in this Catalog may or may not have been performed using Yamaha PowerMatched® components. Yamaha and G3 Boats reserve the right to change the specifications and performance data of these boat & motor packages without notice.

Follow instructional materials and obey all laws. Ride responsibly, wearing protective apparel and USCG approved personal flotation device. Always drive within your capabilities, allowing time and distance for maneuvering, and respect others around you. Never drink and ride.

BAY SERIES

The Bay Series is all-aluminum and all-welded. These models feature wide, deep hulls, exceptional handling and top-end performance, and all of the fishing features that anglers have come to expect from G3 and Yamaha. Tuff Coat™ spray-in liner enhances the interior durability. Extra large livewells give you up to 45 gallons of on-board aerated water for your catch. The standard aluminum trailer makes these boats a joy to tow and to launch without worry in any coastal environment. These classic-styled Bay Boats offer you several outstanding choices for selecting the quality, performance and satisfaction of G3 and Yamaha.

Boat smart from the start, take a boating safety course and get a free vessel safety check annually for your boat. For more information, contact United States Coast Guard at www.uscgboating.org or United States Power Squadrons, 888-for-usps. Follow all instructional materials and local and federal laws. Remember to always observe all applicable boating laws. Never drink and drive. Dress properly with a USCG approved personal flotation device and protective gear. Always use your stop switch lanyard. Operate within your capabilities, allowing extra time and distance for maneuvering. Always operate in a responsible manner, respecting the environment and others around you.

While every effort has been made to ensure the accuracy of the information contained herein, specifications and measurements are approximations and subject to variances. G3 Boats does not guarantee such accuracy and can't be held liable for any errors or any reliance upon this information.

This document contains many of G3's valuable trademarks. It may also contain trademarks belonging to other companies. Any references to other companies or their products are for identification purposes only, and are not intended to be an endorsement. Mossy Oak® is used under license.

The NMMA® Certified label on a G3 Boat lets you know it was built to meet and often exceed, strict quality and safety standards established by the U.S. Coast Guard and the American Boat & Yacht Council. These standards include 31 categories covering electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. As a result, U.S. Coast Guard statistics show NMMA® Certified boats have been shown to be safer than non-certified boats.

Optional buoyancy pods on prop tunnel hull models provide lift for fast hole shot and enhance flat running for shallow draft.

G3 offers optional Humminbird® products throughout the Gator Tough jon boat lineup.

Matching camo mooring covers are popular options for the G3 selection of Mossy Oak® camo boats. Every model is patterned and custom fit to the boat by Dowco®, Inc.
